Work Experience

Engineering & Design Team, Community Manager   **Present**
at HEKORS

- Facilitating communication and collaboration within the community through **open-source** projects and **hackathons**.
- Building a space for learners to get knowledge of **real-world engineering, design,** and **soft-skills** through various sessions, hackathons and 1:1 meetups.
- Ensuring that community members feel **supported** and **engaged** in these activities. Fostering a **positive** and **inclusive** culture within the community.
- Promoting the **values of open-source** and encouraging participation from community members in these initiatives.

Graphic Designer, Front-end Developer   **Dec 2021 - Jan 2022**
at Bullseye

- Engaged directly with the clients and created content that met their requirements. I produced **blogs**, **logos**, and **brochures** for several domains and sites in addition to the **carousel post.**
- Collaboration with the company's **web development team** improved my **UI skills**, and I also developed a number of dynamic **websites for various clients.**

Project & Work

VogueEco www.vogueeco.us
- Our team won the **First overall prize** in the **Design-a-thon** by **MLH** The project we won with is called "VogueEco"
- VogueEco is a tree donation site focused on **reducing the carbon emission** produced by the fashion industry.
- VogueEco is built by using **Tailwind**, **Javascript**, **React**, **Appwrite**, **Docker**, and **DigitalOcean Droplet**. — Github

VoiceForm www.voiceform.us
- VoiceForm can be used with a **voice assistant** to easily fill out **forms**.
- The VoiceForm website is designed to be **accessible to people** with **disabilities**, such as those who are **blind** or have a **language problem**.
- VoiceForm is created using **React**, **CSS** & **Alan AI**. — Github

Volunteer & Community Work

Hackathon Volunteer @Kent Hack Enough
- The project we created is designed to help people remember upcoming events. The website allows users to save the time and date of all their events, including birthdays and anniversaries

Designing Team @CMC (CodeChef Medicaps Chapter)
- Here, my team and I managed all the graphics related things for various events, sessions, and workshops. We made banners, posters, memes, edited videos that helped our events to attract more people and increase community engagement.
